All-In-One Workers Compensation
Telemedicine Medical Treatment
& Claim Reporting

Key Risk
| a Berkley Company

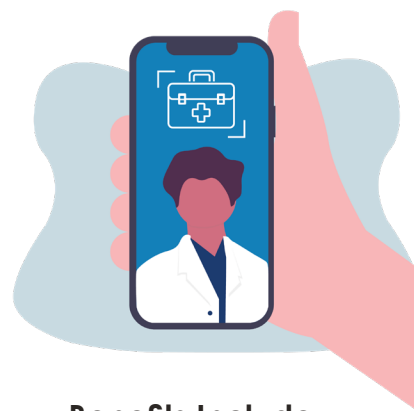

In the event of a workplace accident, grant your employees immediate access to an emergency physician, saving them from long travel & wait times and saving you paperwork & unnecessary medical costs!

How It Works

Always call 911 first for life-threatening injuries.

While waiting for the ambulance, you can still follow the steps below.

1. Have your injured employee call the number below.
2. They will be asked to provide a few details, including:
 - Employer Name & Policy Number - **RAHMAN & ASSOCIATES - POLICY KRM890734931**
 - First & Last Name
 - Date of Birth
 - Social Security Number
 - Home Address
 - Phone Number/Email
3. If needed, the injured employee will be transferred directly to an emergency-trained physician for:
 - Immediate medical assessment and care.
 - Physician follow up as needed.
 - Direct referral to in-person care, if needed.
4. A new claim will automatically be filed with Key Risk on your behalf. Claim details can be accessed and monitored through your online Key Risk claim portal. Claim intake and telemedicine services administered by MedCall Advisors. Please see the back disclaimer for additional details.

Benefits Include

Availability for emergency and non-emergency calls.

Enhanced access to quality medical care 24/7/365.

Average of 86% cost savings compared to traditional emergency department visits.

In the event of needle sticks or other blood-borne exposures, please direct your employee to the closest in-person medical center for evaluation.
